South-east Australia | Bushfires

JRC Global Wildfire Information System (GWIS)
Near Real Time\(^1\) detection

- Burnt areas

- Fatalities
- Fatalities (firefighters)
- Destroyed buildings
- Burnt area

Source: JRC-GWIS

\(^1\)GWIS Near Real Time is only based on thermal anomalies. \(^2\)The fire danger forecast module of GWIS generates daily maps of forecasted fire danger level using numerical weather predictions.

Figures represent the whole South Australia and the whole Queensland.

Source: Crisis Coordination Centre, Australian Government, as of 4 Feb at 18:00 UTC. Figures represent the situation since the beginning of the 2019-2020 bushfires season.

Next 7-Days Fire Danger Forecast (Source: JRC-GWIS)
