The European Civil Protection Pool, commonly referred to as “the pool”, consists of a range of emergency response capacities that countries participating in the EU Civil Protection Mechanism make available for EU emergency response operations. Since the establishment of the pool in October 2014, 25 Participating States have brought together 108 civil protection capacities which are now available (or will eventually become available) for EU operations worldwide, following a request for assistance through the European Commission’s Emergency Response Coordination Centre.

Offered response capacities: 108
Participating States: 25
