© European Union, 2019. Map produced by JRC in cooperation with DG ECHO Situational Awareness Sector. The boundaries and the names shown on this map do not imply official endorsement or acceptance by the European Union.

\* The burnt areas mapped in EFFIS represent, on average, about 80% of the total area burned by wildfires, since only fires larger than 30 ha are mapped. The area burnt by fires smaller than 30 ha represent about 20% if the total burnt area in each country, but this area is not mapped in EFFIS. More info on limitations and the use of these data on: [JRC-EFFIS Rapid Damage Assessment](#)
